

# Cat-n-Mouse Game

For 2 or more players. This is a fun game that can be used with any skill cards for review, but does require a spinner with numbers.

## Object of the Game:

The object is to be the first player to get from the Cat (start) to the Mouse (finish).

## Game Pieces:

Print both halves of the game board and glue them onto a file folder. Cover with clear contact paper or have it laminated.

Playing pieces can be different color buttons, fun shaped erasers, different types of dried beans, different color bingo-type chips, coins or whatever you can find handy.

## How to Play:

Shuffle the skill cards and place them face down.

Decide who will go first. Play continues to the right. First player spins the spinner and then picks a card from the pile. If he/she can correctly answer the problem on the card, the playing piece is moved the number of spaces on the spinner. If a "pawprint" card is drawn, the player will move directly to the colored pawprint on the board that coincides with the color on the spinner, whether it means moving forward or back. Play continues until someone reaches the finish.

Have fun!!
